Other(s):							

**Description of the Event:**

During demolition work in 470 area near new one building three workers were trying to remove the gas alarm lamp stand using by a ladder but while the worker removed the lamp stand the weight of the lamp stand was too heavy than he expected therefore he was not able to balance himself and he slip from the ladder at that time the lamp fell on the other worker who was supporting the ladder on his neck. Although no major injuries happened but swelling was found on the knees of the person who removed the lamp stand and small swelling was also found on the neck of the person who was supporting the ladder. The third person was safe nothing happened to him.

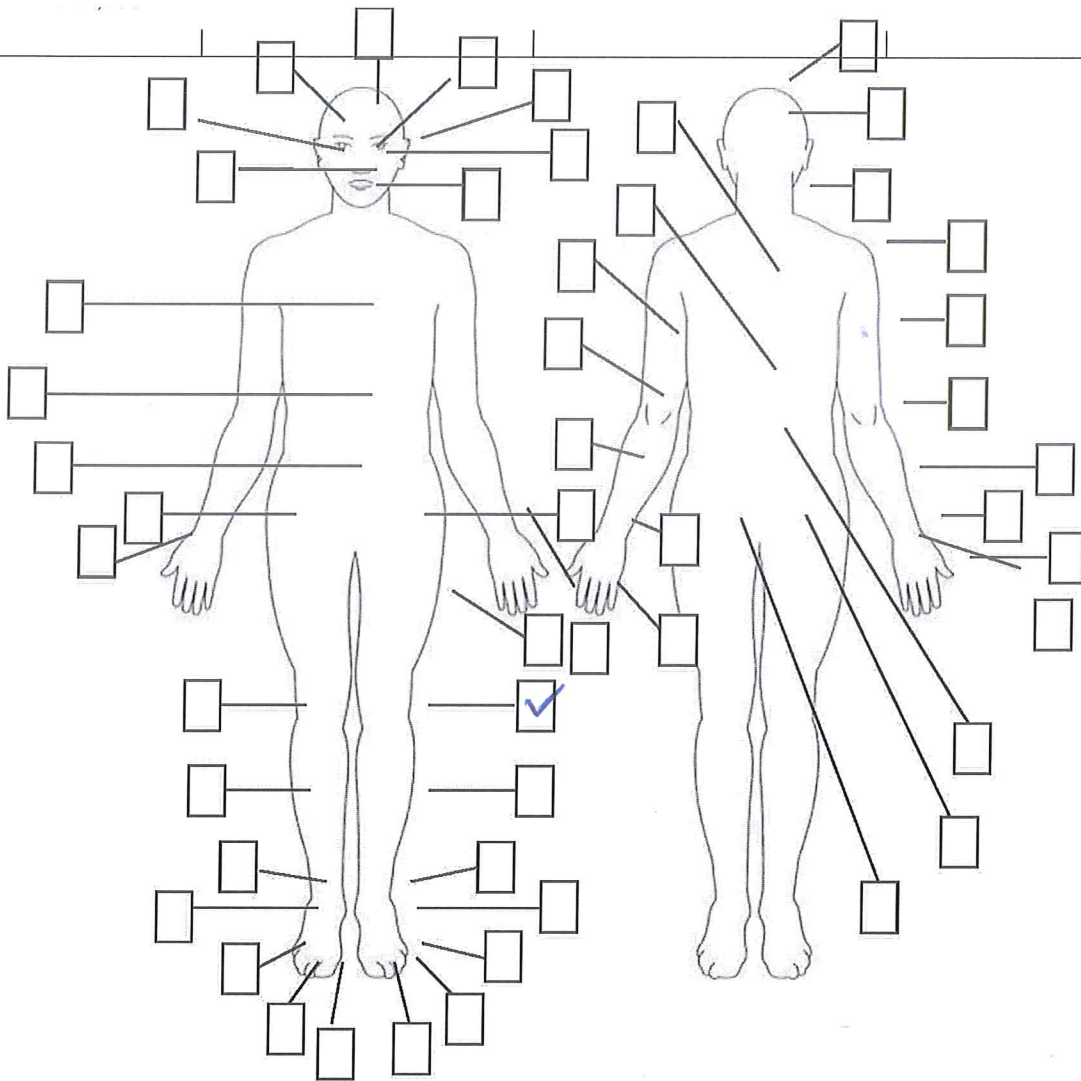

**Immediate Action(s) Taken to Prevent Reoccurrence (If Any):**

- Stop the activity immediately.
- instructed the supervisor to provide the mobile scaffold and stop using the ladder for the same purpose.
- Conducted the TBT and share the lesson learned with rest of the site crew.
